Capacity: 50 ltr
Box size and weight:
16x13x52cm / 1.35kg
When full of water:
35cm diameter x 53cm high

Assembly Instructions

1. Unpack the contents of the box and ensure all parts are correct.
2. Unfold and open your blue FlexiTank.
3. Attach the tap to the bottom of the FlexiTank by pushing it through the hole, keeping the tap at a 90 degree angle anticlockwise (until the tank is full - see 6), ensuring there is a rubber on the outside and the inside of the tank and tighten the nut as tight as possible.
4. Insert all support poles into the side sleeves of the FlexiTank.
5. The Flexitank is now ready to be turned upright and moved into place. Ensure that the Flexitank is placed on a flat and smooth surface to prevent damage to the plastic.
6. Fill the Flexitank. Once full with water, twist the tap 90 degrees clockwise to the correct position.
7. The FlexiTank comes with a 1 year guarantee, covering manufacturing defects. Any misuse of the product is not covered by the guarantee.
